EXPERTISE & SKILLS

Computer skills
- I developed and designed responsive websites using: HTML5, CSS3, GitHub, Font Awesome, Adobe XD, and Bootstrap library.
- Experience with SPSS and Microsoft Office 365 programs (PowerPoint, Word and Excel) to process and present information. I use tools such as:
  - PowerPoint presentations, Word Mail merge, both of SPSS software and Excel pivot tables and formulas to organise, calculate and analyse data and create tables, graphs, diagrams, and bar charts.

Planning and creative skills
Doing a distance learning bachelor's degree greatly contributed to the development of the following skills:
- well-developed ability to identify and prioritise tasks and adhere to a work schedule.
- Strong independent learning skills such as self-mentoring and reflecting.
- Developed organizational, critical thinking and reading skills which enabled me to execute multiple kinds of reports and essays.

Communcation skills
- present information in a visually neat and coherent manner that is audience appropriate, weather in written reports and essays or when using MS365 programs.
- Utilizing feedback to develop my knowledge and skills.

LANGUAGES

- Arabic: Native.
- English: C1, Advanced: Have a competent verbal and written English language skills.
